## Millinery.

The newest and most artistic display of high class millinery, showing the latest creations from Paris, London and New York, as shown in the leading centres of fashion and style, will be seen under the management of Mrs. Carey.

## Dressmaking.

Our Miss Mickie who is now in Detroit will be here 1st March with the very latest spring ideas. Miss Mickie is the finest and most up-to-date dress maker in the east and we are therefore in a position to guarantee perfect satisfaction.

Remember the New Store! One Price!  
Your money back if you want it!

## B. Carey.

M. J. MacLeod's Old Stand, Main Street.

## A SERIOUS CHARGE

AGAINST THE TWO GREAT CANADIAN RAILROADS.

The C.P.R. and G.T.R. Said to Have Given the Standard Oil Company a Special Rate to the Detriment of Independent Dealers—Appeal to the Privy Council's Railway Committee.

Ottawa, Feb. 20.—A matter of immense importance to the commercial community will come before the Railway Committee of the Privy Council next week, namely, the right of railway companies to charge discriminating rates, favoring certain of their clients to the detriment of others. The question has been precipitated by the alleged action of the C. P. R. and the Grand Trunk in granting special rates to the Standard Oil Company against independent dealers and refiners, contrary to the very clear provisions of the Railway Act. The law provides that under the same circumstances all tolls shall be charged equally to all persons, with no reduction or advance directly or indirectly in favor of or against any particular company or person travelling upon or using the railway, and prohibits any secret rates, rebate, drawback or concession.

The matter will come before the Railway Committee in the form of an appeal by the Sun Mill Refining Company, of Hamilton, against the oil tariffs of the railway companies. The Standard Oil Company has obtained control of the Petrolia oil fields, and the independent dealers say that the rate on American oil has been increased with the object of compelling consumers to use Petrolia oil. The principle is one affecting every branch of commerce, domestic and foreign, for all are dependent in a greater or less degree on the railways for transportation facilities. The outcome of the appeal to the Privy Council will therefore be awaited with very great interest.

### NO SUBSERVENCY IN THIS.

The persistent allegations in a section of the Opposition press, that the present Government, and particularly the Canadian members of the Joint High Commission, are in danger of betraying the interests of their country, are well met by such remarks as fell from the Minister of Militia last week, when he observed: "We are getting experience in building up a nation, and we are becoming more self-reliant every day. Not long ago many of us thought our future depended on some one outside our own borders. We fairly shivered with fright lest our products be shut out of that market by a hostile tariff. We are still solicitous for an outlet, but always on the principle of not giving more for it than it is worth. We are becoming more self-reliant and progressive and can only say to those who want to shut out our products,—products that are better than theirs,—'We can find another market.' We have already done so in many things, and it is growing better every day." Dr. Borden went on to say that we have settled many differences of race and religion, and it was high time to forget that we were Anglo-Saxon, English, French, Scotch or Irish and to remember that we are all Canadians, for we have been here long enough to develop a race with characteristics of its own. He believed that one great step in building up a nation had been taken in 1887. There had never before been a French-Canadian leader, but the Liberals said that they would select the best man without regard to race or religion. They selected Mr. Laurier and from that day the star of the Liberal party rose. The question whether a French-Canadian could lead a party in Canada will never be raised again.

### MISS SHAW ON THE KLONDYKE.

According to English newspapers to hand by the last mail, very much interest has been created by the lecture which Miss Flora L. Shaw, special colonial correspondent for The Times, London, Eng., has delivered before the Royal Colonial Institute, upon "The Klondyke." Miss Shaw is evidently anxious to make amends for the erroneous impressions she conveyed by her first letters from Dawson City, in which she repeated all manner of wild stories of official crookedness and alleged administrative turpitude, stories which she undoubtedly believed at the time were true, but which have since been shown to have been grossly exaggerated, and accepted by that lady without sufficient investigation.

According to the reports she has nothing but good to say of that marvellous country. She believes after careful investigation into the best technical data

available that it will take fifty years to work out the alluvial gold that is now in sight, and it is scarcely conceivable that in such a period the quartz veins which every one is seeking will not be found and further developments opened up.

### A BRIGHT DREAM OF THE FUTURE.

"Imagine," said the lecturer, "this great district thrown fully open; hydraulic machinery everywhere at work upon the gold-bearing streams; the mountains tested for low-grade gold-bearing rocks; the silver, the nickel and the copper, which are known to exist, brought forth; the coal, the gas and the petroleum-bearing beds of the Mackenzie district, of which the foundational tar sands have been already shown to stretch in width for about three hundred miles, and in length north and south for about a thousand miles, developed; no less than those the agricultural and pastoral possibilities (which she considers greater than anyone else has yet ventured to predict) and try then to think of the needs and the activities of the hardy northern population that will be born and bred upon the lands."

Much more did Miss Shaw have to say along the same lines, in terms of what might appear to be extravagant eulogy, of the Canadian far North-West and its future, and, as one paper has observed, "She has doubtless done much by her lecture for the Yukon district,—more than many company promoters of even the worst type can do."

### WE WANT MORE BOATS.

If any further evidence is wanting of the total inadequacy of the present transportation facilities, a glance at the condition of affairs on the Upper Lakes, at the close of navigation last season, will supply it. As compared with the American fleet, we are outnumbered fifty to one, according to the estimate of Captain D. C. Leckey, of the C. P. R. steamship Athabasca, and outclassed in about the same proportion. There is, moreover, no question that the Captain is also correct in his opinion that "the Canadian wheat yield will take a jump next year owing to the emigration of the Doukhobors and other newcomers. Every family sent into that country means that a farm will be worked, and every farm worked means an increase in Canada's grain trade." "The Government was right," adds the Captain emphatically, "in putting those people in there, and the papers that howled against it don't know what they are talking about." Asked if the competition of the Ottawa, Arnprior & Parry Sound steamship line had hurt the Canadian Pacific Railway trade, Captain Leckey replied: "Not a bit; there is more to do up there than we, or in fact both lines combined, can attend to. I would like to see half a dozen fleets on the same routes. There is plenty to do, and a good strong reason why so much of the grain trade goes to Buffalo is because there are not enough Canadian vessels to handle Canada's share of it."

### McIntyre in the Bonds.

Verily the good old days are passing and with them go the good old ways. When our parents wedded it was customary to have the marriage banns announced two or three weeks previous to the happy event. The whole neighborhood was supposed to be interested, and the prospective bridegroom was the most popular man in town. How different now. The other week our popular young tinsmith left for Winnipeg to take in the bonspiel. The next we heard of him he was married at Regina. This week Mr. W. M. McIntyre, of Robinson & Hamilton's, was reported to be on the sick list, but it appears that while unable to work he took a trip east, with the result that the following appears in the Regina Leader:

Mr. W. M. McIntyre, of Moose Jaw, came in on last evening's train and registered at the Windsor. This morning's train conveyed to Regina from Alvinston Ont., Miss Sadie Healey, who registered at the Windsor. At the manse at 12 o'clock to-day Pastor Carmichael registered Mr. McIntyre and Miss Healey man and wife.

Mr. and Mrs. McIntyre arrived home this morning and have taken up their residence on River Street, west. The bride has been made the recipient of a number of costly presents from her prospective Moose Jaw friends, who extend to her a cordial welcome. We join in wishing the happy couple a long life of happiness and prosperity.

At the annual meeting of the White-wood Creamery Co. a most gratifying report was presented to the shareholders. The old board of managers were unanimously re-elected. 45,000 pounds of butter was the season's make. A dividend will be declared upon receipt of the final returns from Ottawa.

## U.S. WORKS OF PRAISE.

### U.S. HAS EVERY HOPE OF A SATISFACTORY ISSUE.

#### The Spirit of the Joint High Commission Negotiations an Important Feature.

New York, Feb. 18.—Referring editorially to the joint high commission and its work, the Tribune today says: "In enumerating the controversial issues at the time of the first meeting of the commission we remarked that it was scarcely to be expected that all of them would be satisfactorily disposed of. It was not reasonable indeed to suppose they would be. The amount of work involved in exhaustive investigation and discussion of them was seen to be too great for a single commission to perform within the time at this one's disposal. Commercial reciprocity, Behring Sea sealing, North Atlantic fisheries, the Alaskan boundary, Klondike mining laws, alien labor laws, fisheries and shipping in the Great Lakes, the railroad bonding system, are all questions of first-rate importance, and there are as many more of secondary rank. To ask a single commission to provide within six months for the settlement of them all in an omnibus treaty would be to ask the discovery of Utopia."

"But if only a few, or even a single one, of the matters shall be settled, the work of the commission will not be in vain. Consider how much time and labor and expense have hitherto been expended on a single one. Over the Behring Sea business we had negotiations and conferences, and an international court of arbitration, and then the question was left unsettled. There were a few years ago far more discussion and work over the North Atlantic fisheries than this commission has given to all the questions put together. So the settlement of only one or two disputes will be a not unsatisfactory conclusion of the commission's work. But there is still ground for expecting more than that, for expecting, indeed, that only a few, perhaps only one or two, of the conclusions will be left unsettled."

"The value of the commission's work is, moreover, not altogether to be measured by the number of questions settled. The spirit in which the negotiations are conducted must be taken into account. It may be stated confidently that the spirit has been conciliatory and amicable. The commissioners have met as friends, not as enemies, and however much or little actual business has been or shall be transacted, friendly relations between the countries have been strengthened, and the way made easier for the future settlement of questions which now may be left unsettled. That is a feature of the case which it is well to keep in mind, and if this is done, there need be little talk of the failure of the joint high commission."

#### Six Days Bicycle Race.

San Francisco, Cal., Feb. 18.—At the end of the sixty-seventh hour, thirteen riders still remain in the international six-day bicycle race. Gimn's lead over Miller and the field has been reduced slightly. He is now twelve miles in front of Miller, but is riding strong. In the sixty-third hour, when twenty-four miles to the goal, Gimn left the track for an hour's sleep. On returning to the track he took the initiative and started a galloping gait for Miller. The Chicagoan got tired following and tried to run away. Gimn trailed, a game he had worked so persistently since the start of the race. Gimn 1333, Miller 1324, Aaronson 1270, Pierce 1222, Hale 1221, Fredericks 1189, Albert 1112, Barnaby 1188, Nawn 1171, Pilkington 1140, Lawson 1087, Ashinger 992, Julius 932. The previous best record was 1,234 miles and 118 yards, held by Miller, made in Madison Square garden.

#### Too Many Studies.

Vancouver, Feb. 18.—A unique meeting of the school board was held last night. The principals of the city schools had been requested to be present to give their views on the introduction of several new features into the present system. One of these was the teaching of needle work and knitting, and teachers were not backward in expressing strong disapproval of the introduction into their curriculum of two such purely domestic arts. During the discussion, Principal Stewart made the statement that the sunshine and joy of child life in this city was being crushed out by too many studies. He knew this from a personal observation, and strongly advocated cutting down the present curriculum.

#### Klondike Output, \$19,000,000.

Vancouver, Feb. 18.—M. Marks, an Australian expert direct from Dawson, places the output of the Klondike at \$19,000,000 this year. His estimate is as follows: El Dorado and Bonanza Creeks, \$5,000,000; big and little Bonanza, Gold and French Creek, \$5,000,000; Dominion, \$4,000,000; Hunker and Quartz Creeks, \$5,000,000, making a total of \$19,000,000.

#### Discovered a Coal Mine Near Dawson.

Victoria, B. C., Feb. 18.—The steamer Amur arrived this morning. She had news of the discovery of a rich coal mine by Wm. Joel, who was on the steamer en route to Ottawa to apply for a grant. The mine is nine miles from Dawson.

The reindeer herd which left the coast in May last, reached Dawson in January. There are 125 in the herd. M. Mark, an Australian mine owner, estimates the output at \$19,000,000.

## Opposition in Congress.

Washington, Feb. 18.—In the house yesterday during the consideration of the sundry civil bill, the paragraph carrying the appropriation of \$20,000,000 for payment to Spain under the terms of the peace treaty was stricken out upon a point of order made by Mr. Wheeler, a Kentucky democrat, who declared that he opposed the appropriation on principle and would resort to any technicality to defeat it. The point of order was debated for hours, its determination hanging upon the question of whether the ratification of the treaty by the senate and its signing by the president legalized it without the action of the Spanish cortex.

A warrant of law was necessary to make the appropriation in order. Mr. Hopkins, Republican, Illinois, who was in the chair, sustained the point of order against it and upon an appeal his decision was sustained, 149 to 36. Mr. Cannon then attempted to have the appropriation inserted by unanimous consent, but Mr. Wheeler again objected. A strong intimation was given by Mr. Cannon that a way would be found within the rules to make the appropriation before the adjournment of congress. He referred undoubtedly to the probability that the appropriation would be placed in the bill by the senate.

#### Rescued 42 Sailors.

New York, Feb. 18.—The Holland line oil tank steamer Rotterdam, which arrived this morning from the port of the same name, brought forty-two members of the crew of the steamer Rossmore, from Liverpool for Baltimore, who were rescued in mid-ocean.

The Rossmore was abandoned in a sinking condition. The other nine members of the crew had been taken off the day before by the steamer Trojan, Newport News for Glasgow. The disabled steamer's position was latitude 40.33, longitude 48.46. That same day the oil tank steamer Rotterdam, from Rotterdam for New York, bore down, and although the gale was blowing furiously, succeeded in taking out twenty-three of the Rossmore's crew. The Rotterdam stood by sixty hours before the final rescue was effected. February 8th, the remainder of the crew, nineteen in number, were taken off the vessel and the Rossmore was abandoned. Captain Duncanson says that the Rossmore strained and labored so violently in the tremendous seas that she started a leak which could not be stopped and that when abandoned considerable water was in the holds.

## GENERAL NEWS.

Washington, Feb. 18.—Senator Frye has introduced an amendment to the sundry civil appropriation for the encouragement of Pacific cable.

London, Feb. 18.—The Madrid correspondent of the Daily Chronicle says that the cabinet has decided to consider "the best manner of selling the Carolina and Marianne Islands."

Victoria, Feb. 18.—The provincial government is \$200 richer as a result of the Nelson bye-election, when the minister of mines, Mr. Hume, defeated A. S. Farwell. The latter received 324 votes while Hume got 508.

New Westminster, Feb. 18.—Sensational reports sent from here about a boiler explosion prove to be untrue. There was a serious accident, however, resulting in a destruction of a large seven-foot flywheel. No one, Manager Lewis says, was injured.

Minot, N. D., Feb. 18.—Three hotels at this point, the Klondike, the Minot and the Hoffman house, were burned last night. The loss was \$5,000; insurance \$3,000. Several of the guests had narrow escapes.

London, Feb. 18.—The chancellor of the exchequer, Sir Michael Hicks-Beach, announced that the house would be asked to vote \$150,000 for General Lord Kitchener, of Khartoum, which sum would probably be invested for his benefit.

Ottawa, Feb. 18.—Col. D. H. McMillan, provincial treasurer of Manitoba, left for Toronto tonight, where he will meet Mr. J. D. Cameron, attorney-general, who is recovering from his recent illness.

St. Paul, Feb. 18.—Fire tonight destroyed John Hugsland's house, at Moorhead. Policeman McLain was struck by a falling chimney and instantly killed. He was a widower and leaves three children.

Berlin, Feb. 18.—The scheme for a direct cable between Germany and the United States is being pushed. Many prominent Germans are interested in the project, and capitalists in Cologne are organizing a company to lay the cable, with a capital of 20,000,000 marks.

Londonderry, Feb. 18.—The result of the voting yesterday in this city for a member of parliament to succeed Mr. Edmund E. P. Knox anti-Farrellite, who resigned his seat, was the election of Count Arthur Moore, nationalist, by a majority of 42.

New Westminster, Feb. 18.—Two boys, named Isaac Fisher and George Howison, both aged 18, sons of prominent Westminster people, have been missing for several days. They went out on Burnaby Lake in a canoe Wednesday, and it is feared they are drowned.

#### Toronto Lawyer Arrested.

Toronto, Feb. 18.—T. W. Howard, formerly a lawyer in this city, who served a term in the Central prison for forgery and misappropriation of funds of clients, who is now in the United States, will be brought back if possible to Canada, and tried on a number of charges, involving misappropriations to the extent of \$10,000. Detectives have kept track of him, and his extradition will be demanded.

A rich coal mine was discovered near Dawson.

## THE STORM'S HAVOC.

### EASTERN CITIES SLOWLY EMERGING FROM SNOWY BEDS.

#### Fishermen and Crews Suffer Great Hardships—Incoming Steamers Report Injuries.

New York, Feb. 15.—With clear skies and warmer weather, New York slowly started to dig herself out of the snow this morning. The snow fell short by six inches of reaching the record made by the great blizzard of 1888. Then the snow fall was a fraction over 20 inches. Barring that, the blizzard of 1888 was the worst in twenty years, according to the records. The railroads running into the Grand Central station did not make much progress in restoring order from the chaos into which the blizzard had plunged them. While their officials were very hopeful that they would be able to establish some kind of a train service tomorrow they were obliged to admit that no thorough trains had passed over their respective lines since Monday. The New York Central line continued to be tied up all day as far as incoming trains were concerned. The great drifts 30 miles south of Poughkeepsie, at Coldsping, were too much for the snow-plows, and trains were massed at both sides of this point in large numbers.

Baltimore, Feb. 15.—At a late hour tonight neither the Pennsylvania nor the Baltimore & Ohio lines had succeeded in clearing their tracks for traffic. The former announces that they expect to be able to resume their regular passenger schedule tomorrow morning, and the Baltimore & Ohio officials assert that their line will be open from Philadelphia to Washington and the west by daylight.

Dallas, Tex., Feb. 15.—Reports from all over Texas are that the blizzard of Saturday and Sunday was the most severe in the history of the state. The loss of cattle will likely be very large though accurate figures are not yet forthcoming.

London, Feb. 15.—A dispatch from Brete says that many fishing boats and coasters have been lost along that section of the French coast and that twenty-six fishermen have been drowned.

Norfolk, Va., Feb. 15.—The Merchants' and Miners' Transportation company's steamer State of Texas, from Baltimore to Savannah, went down Saturday night last in eighteen feet of water in Chesapeake Bay. All her passengers and crew were taken off by a tug and brought to this city. Their suffering was terrible.

Savannah, Ga., Feb. 15.—One of the missing boats belonging to the steamship William Lawrence, was wrecked on Saturday night last, on Port Royal bar, South Carolina, on Saturday night last, and was picked up by a pilot boat Monday morning. The seven men in the boat had a terrible experience, and their condition when rescued was pitiable. After striving in vain to reach land, they on Sunday night located the sea buoy off the bar, made fast to it and remained there until the pilot boat found them. The other boats with fourteen men are still missing. Boats will go in search of them. The Lawrence is a total loss.

New York, Feb. 15.—The coal supply in New York is limited, while the prices run proportionately to the other extreme. It is said \$20 to \$25 per ton was offered yesterday for immediate delivery.

#### Outrages by Bandits.

Port Townsend, Wash., Feb. 15.—The steamer Olympia has arrived from the Orient, bringing late advices as follows:

The province of New Chwang is in a state of terror, occasioned by the appearance of 1,000 mounted bandits. Numerous outrages have been committed on residents. The merchants have moved their goods to a treaty port, twenty miles south of the invaded district. Grave fears are entertained that the bandits contemplate a raid on the latter place, which is being fortified.

By the breaking of the ice on a river leading to Tien Tsin, 200 people were precipitated in the water. One hundred and six were drowned.

A report has reached official circles at Peking that an assassin was dispatched to Japan to take the life of the Emperor of Japan. Great excitement was caused by the rumor, and a thorough investigation has been ordered.

#### Found Dead in Bed.

Ottawa, Feb. 15.—Sergeant Charles T. Hurrell, aged 60, an imperial army pensioner, and who served in the Northwest rebellion, was found dead in bed this morning. Hurrell was at one time a farmer near Marquette, Manitoba, and had lived at Ottawa for twelve or thirteen years.

#### Population of Montreal.

Montreal, Feb. 15.—Mayor Prefontaine is devoting himself to the question of the annexation of the various suburbs, which he considers a matter of the highest importance. He insists that the population will be over 700,000 next census.

#### The Gasparis Frozen.

St. Johns, Nfld., Feb. 15.—Capt. Delaney, commander of the steamer Bruce, a powerful iceboat which runs on the winter mail service between Newfoundland and Cape Breton believes that there is no doubt that the Canadian liner Gasparis is in a dangerous predicament in the Gulf of St. Lawrence, owing to her not being fortified to contend with ice floes. He believes she may remain frozen there for weeks unless the winds change, and loosen the floe, and so enable her to escape.

## CANADIAN NEWS.

Montreal, Feb. 14.—Hugh Brodie, a leading notary, is dead.

Montreal, Feb. 14.—The waterworks committee is asking for nearly a million dollars to spend in improving the system.

Toronto, Feb. 14.—Mrs. Harrison, widow of the late Major Harrison, and daughter of Sir Frank Smith, died very suddenly last evening at Sir Frank Smith's residence.

Pictou, Feb. 14.—The Bank of Montreal building here was gutted by fire this morning. The bank books and valuables were saved. The loss is covered by insurance.

Toronto, Feb. 14.—The death of Mrs. Harrison, daughter of Sir Frank Smith, has had a bad effect on her father. He was very low tonight. Sir Frank has been ill for some months.

Dunfermline, Feb. 14.—Saturday morning Nathan Devine, while engaged chopping wood two miles from here, was instantly killed by a falling tree. Deceased leaves a widow and three children.

Toronto, Feb. 14.—Hugh Ryan, a well-known contractor, died early this morning, aged 66. He had been ill some months of angina pectoris, but his strong constitution fought hard against death.

Nelson, B. C., Feb. 14.—The Bank of Montreal has reported another gold brick from the Athabasca mine. The brick was consigned to the United States assay office at Helena, Montana, and was valued at \$4,500.

Toronto, Feb. 14.—Half a dozen horseless carriages have arrived in this city. They are operated on the electric storage principle. E. Ames, H. H. Fudger, J. W. Elaville, and other Toronto capitalists, will endeavor to have carriages manufactured in Toronto.

Vancouver, Feb. 14.—It is said Mr. F. T. Hamshaw, who is in the east, has sold his Summit Creek and Six Mile Creek placers to eastern people for \$38,000. It is impossible to verify the rumor at this time, but it is generally believed here.

St. Johns, Nfld., Feb. 14.—The British steamer Dahome, which left Halifax on the 9th inst., for this port and Liverpool, arrived here yesterday. She reports coming through a field of ice three hundred miles long. This is something unprecedented at this season.

Port Arthur, Feb. 14.—Mr. Roy Sweeney, a prominent West Algoma mining man, was married at St. John's church today to Mrs. Ault, of London, England. Mr. and Mrs. Sweeney left by tonight's express for the Roy mine, in the Sawbill district, which he is operating.

Ottawa, Feb. 14.—Assistant City Engineer Perrault was today suspended by Engineer Galt pending an investigation into the circumstances under which the former allowed overpayments to be made to the Warren-Scharf and Ottawa Granite companies for pavement works.

Toronto, Feb. 14.—John B. Kerr, who leaves here on Wednesday for Roseland to take editorial charge of the Roseland Miner, was banqueted on Saturday night by his fellow-members of the Globe staff, who said many kind things of him. Robert Jaffray presided. Mr. Kerr was formerly editor of the Calgary Tribune, and the Vancouver Telegram.

#### Amend the Act.

Vancouver, Feb. 14.—James Lamert, who has returned from Athin, intends to suggest to the government some further alterations in the placer mining act. He states that speculators, practically Americans, have staked out many placer claims in the Athin district, but have not recorded them. A newcomer does not know this. When he arrives in the district he sees the stakes and is about to pass on when he is accosted by a man who says that for \$50 he can get the newcomer one of the staked out claims. The new arrival may not have \$50 to spare and has to go further afield. He cannot waste time to make a two days' journey to see if the claims are recorded. The present placer mining act, Mr. Lamert says, should be amended so that all locators be obliged to place their names and the number of their mines' licenses on the stake just in the same way as is provided by the quartz mining act. If this was done, Americans and others would not, Mr. Lamert thinks, be so easily able to speculate at the expense of legitimate miners.

#### Much Suffering in New York.

New York, Feb. 14.—Storms are still raging throughout the East and on the ocean. Much suffering is being experienced throughout the city. The charitable societies were busy throughout the day in caring for the needy of the city. The Salvation Army, too, exerted itself in caring for the poor. There were also many instances where private persons made donations to alleviate the sufferings. Mayor Van Wyck today notified Commissioner John W. Keller, of the department of charities, that he had \$20,000 subject to the commission's draft for the purpose of relieving the poor. Tammany Hall gave half the amount, while Richard Croker and James B. Keene, the financier, contributed \$5,000 each.

#### An Aged Lady Burned.

London, Ont., Feb. 14.—Mrs. Daniel O'Hear was sitting beside a coal stove Saturday morning, when her dress caught fire, and before the flames could be extinguished she was fatally burned. Her clothing was almost wholly consumed and she was terribly scorched about the face, neck and arms. Her husband and daughter were near by and smothered the fire with blankets. Mrs. O'Hear was 70 years of age, and for many years a resident of London.

## M. EMILE LOUBET.

### IS ELECTED PRESIDENT OF THE FRENCH REPUBLIC.

#### Ex-Premier Meline Casts His Vote For Him—Asks His Friends Not to Vote for Him.

Paris, Feb. 19.—M. Loubet was yesterday elected president of France by 483 votes against 270 votes cast for M. Meline.

Paris, Feb. 19.—From an early hour the stations of the railroad lines leading to Versailles were crowded with people gathered to witness the departure of the duties and senators. M. De Gaulle arrived by the Lyons railroad and was met by members of the Patriotic League. Order prevailed at all stations, where to all appearances there was no special police precautions taken.

The first trains took an army of telegraphists and telephonists to Versailles where the town hall was decorated with flags and draped with garlands. The members of the national assembly, namely, the senators and deputies, began to assemble at 10 o'clock and to select their seats.

M. Loubet, president of the senate and presiding officer, arrived in a carriage at 10 o'clock.

Friends surrounded him when he entered the gallery of busts and said: "If you love me I hope you will not vote for me."

Soon the scene became animated. Crowds of people surrounded the doors, watching the arrivals of the members. The palace was closed to the public. Various political groups held meetings at noon and M. Cocheret, announced that M. Meline had definitely withdrawn his candidacy. The Nationalists and anti-Semites, decided not to vote for M. Loubet.

The assembly met at one o'clock. M. Loubet declared the sitting open amid the applause of the left, during which M. Loubet proceeded to draw for tellers.

Emile Loubet was born at Marsanne on the 21st of December, 1838. He was educated for the bar and began his practice at Montelimar. He was one of the deputies who refused a vote of confidence to the Delbrogue ministry in 1877. After having been twice elected to the assembly he became a candidate for the senate in his old department, and was elected in 1885. He became a member of the first Tirard ministry, which only survived for six months holding the position of minister of public works. When M. De Freycinet declined to undertake the presidency of the council he was intrusted with the reconstruction of the ministry, and took the position of minister of the interior, from which M. Constans had retired in 1892.

#### The Paris Exposition.

Ottawa, Feb. 14.—At a meeting of the advisory board in the minister of agriculture's office it was arranged to make display at the Paris Exposition on the following lines. Farinaceous products (general) and their derivatives; preserved goods, including a small proportion of beverages. The working of mines, quarries and their products, animal and vegetable. Textile fabrics, cottons and woolsens and clothing generally, together with the plant and process. Products of the forest, hunting and sporting equipments, game, etc., including fishing appliances, tackle products and fish culture. Carriages, wheelwrights' work, bicycles, etc. Railway and tramway plants are next in order of the distribution of space by the board of commissioners; horticultural products, plants and tree culture, nursery seeds and stock. The exhibit of p. p. and paper household and art furniture, ranges, furnaces and heating apparatus generally. Education, musical instruments.

The smaller exhibits are of photography, electricity, boats and canoes, fruits and fruit trees, metal working, carpentry and joinery, leather and skins, tobacco and matches.

#### Coal Famine in Pittsburgh.

Pittsburgh, Pa., Feb. 14.—A coal famine is threatened here. The total coal supply now in the Allegheny and Monongahela rivers at Pittsburgh does not exceed one million bushels. The daily consumption is 200,000 bushels, and there are orders for instant delivery of at least 400,000 bushels. The rivers are frozen up tight, and the railroad freights are not moving. Coal has advanced from 8 1/2 to 10 cents a bushel, and in some cases is selling as high as 25 cents. Hundreds of wagons are waiting on the wharves to load, and thousands of orders for fuel are being received that cannot be filled. The situation is the most critical in years. There are millions of bushels of coal in barges up the river, but there is no way to get it here. The situation has become so desperate that an effort is being made to break the ice on the Monongahela as far as Lock No. 2 and 3, above which it is said there is coal enough to supply Pittsburgh and Allegheny for a month if all other sources of supply are cut off.

#### No Danger.

"I shall say nothing about this to anybody," said the young woman, attempting to soften the blow, "and I need not add that there is no occasion for you, either, to repeat it." "Repeat it!" echoed the rejected lover bitterly. "No, I shall never propose to another girl because of her pretty doll face as long as I live!"—Chicago Tribune

## Surrender of Iloilo.

Manila, Feb. 14.—The United States forces under Brigadier General Miller, captured Iloilo, capital of the island of Panay, and the seat of the so-called government of the Vizayan federation, on Saturday last after a bombardment. The rebels set the town on fire before evacuating it; but the United States troops extinguished the flames. There were no casualties on the American side.

Washington, Feb. 14.—Shortly before midnight Adjutant General Corbin made public the following dispatch from Major-General Otis, reporting the capture of the town of Iloilo by the United States forces, under General Miller, on the 11th Gen. Miller reports from Iloilo that the town was taken on the 11th instant and held by troops. Insurgents were given until evening of the 11th to surrender, but their hostile action brought about an engagement during the morning. The insurgents fired the native portion of the town, but there was little loss to the property of foreign inhabitants. No casualties among the United States troops are reported.

#### Accused of Stealing Letters.

London, Ont., Feb. 14.—Wm. J. McHarg, a clerk in the London postoffice, was yesterday morning arrested on a charge of robbing the mails. McHarg was employed in sorting the unregistered mail and is charged with having appropriated letters containing money and other articles of value. The specific charges upon which he was arraigned included that of taking \$3, \$10 and a pair of gloves. When arrested he had a pair of gloves in his possession, which, it was claimed, were stolen from a post parcel. McHarg, who was appointed in October last, is young, married, of very respectable family.

#### For Gossip's Sake.

London, Feb. 14.—Francis C. Baring was today awarded a decree of divorce on the ground that his wife had been guilty of adultery with his cousin, the Hon. Reginald Thomas Dudley Brougham, brother of Baron Brougham. All the parties to the suit are well known in society.

London, Feb. 14.—Baron Karl de Merck has secured a divorce on the ground of adultery committed by his wife with her maid's brother. The baroness was formerly Miss Lillian Young, and is said to be a United States woman.

#### Sinking of the German.

New York, Feb. 14.—The White Star line steamer Germania sank at her pier this evening and is now lying there partially submerged. The accident is said to have been due to the heavy coating of ice which formed on the sides of the steamer. The continued loading of coal combined with the heavy weight of the ice caused the steamer to list, and she slowly sank to the bottom. It is said no lives were lost.

Horseless carriages will be manufactured in Toronto.

## THE MARKETS.

New York, Feb. 20.—Wheat receipts, 21,600 bushels; exports, 224,639 bushels.

Chicago, Feb. 20.—Futures closed as follows:

Wheat—May 73 1-8; July 71 1-2.  
Corn—Feb. 34 1-4; May 35 1-4;  
July 36 1-4.  
Oats—Feb. 26 1-2; May 27 1-2; July 28 1-2.  
Lard—May \$9.65  
Perk—Feb. \$9.15; May \$9.35.

#### WINNIPEG MARKETS.

Wheat—No 1 hard, Fort William, 68 1/2c.  
Flour—Patent, \$1.95; strong bakers, \$1.75; Glenora, 1.85; Manitoba bakers, \$1.55; Algoma, \$1.30; Imperial XXXX \$1.15; XXXX, per sack of 98 lbs., \$1.05. Discount of 5 per cent. for cash.

"And what is writ, is writ—  
Would it were worthier!"—Byron.

FRIDAY, FEBRUARY 24, 1899.

### THE WOLF BOUNTY.

Medicine Hat News: The Secretary of the Western Stock Growers' Association has just received a further sum of \$900.00 from the North-West Government to be applied in payment of Wolf Bounties. This makes the total amount received since 1st February, 1898, \$3,000.00. Of this amount \$2,547.00 has been expended to date, leaving a balance of \$453.00 now to the credit of the fund. In addition to this, and during the same period, a sum of \$764.00 has been expended by the Association from its own funds in additional bounties, making a total amount expended from 1st Feb., 1898, to 1st Feb., 1899, of \$3,311.00. It is interesting to note that of this amount \$1,878.00 was required to meet vouchers issued in the Medicine Hat and Maple Creek districts. The bounties now being paid continue the same as during the last three months, viz:

#### GOVERNMENT BOUNTY.

For every Pup wolf (either sex)..... \$2.00  
For every Dog wolf (over three months old)..... 5.00  
For every Bitch wolf (over three months old)..... 7.00

#### ASSOCIATION BOUNTY.

For every Bitch wolf (over three months old)..... \$3.00  
Thus making a total bounty on grown up female wolves of \$10.00.

### CIVIC MATTERS.

Some of the ratemakers of Moose Jaw are of the opinion that the municipal clock needs winding up. Under Section 137 and 138 of the Municipal Ordinance, it is incumbent on the Council to appoint an auditor whose duty it is to audit the books for the year ending 31st December preceding his appointment; and Section 141 provides that the accounts of the Secretary-Treasurer shall be audited at least once in every three months. Section 140 of the same Ordinance provides that "the Council of every municipality shall, not later than the 15th day of February in each year, caused to be published within the municipality a detailed copy of the auditor's report as required by Section 138."

On looking through the records of the council of last year, we find that two auditors were appointed on Jan. 17, 1898. It was their duty to audit the books of 1897 and every three months during 1898, as laid down in Section 141. The audit for 1897 should have been made before 15th Feb., 1898, yet we find at the last meeting of the Council a motion passed instructing the auditors to complete their report for 1897 and 1898 and submit it to the Council, a matter that should have been attended to one year ago. During the last month, in accordance with the Ordinance, an auditor was appointed to make a yearly audit for 1898 and a quarterly audit during the current year. The yearly audit should have been published two weeks ago, but we have been informed that the work has not yet commenced, as it would be inconvenient for two different audits to be made at once. Section 107 makes it a duty of the Mayor to call a public meeting of the ratemakers for the discussion of municipal affairs within the two weeks preceding the date fixed for holding the annual election of Councillors. This meeting was held according to law, and partial statements were given by the Mayor and Councillors present, but outside of this the ratemakers are not in a position to know the financial condition of the town.

The School Board were also somewhat negligent last year in regard to following the instructions as laid down by the Ordinance. Section 35 of the School Ordinance deals with the election of trustees in town school districts, and says that all reports required under Section 37—such as the reports of the Teacher, Inspector, Trustees, Treasurer, etc.—may be printed in a newspaper at least one week before nomination day, or a public meeting shall be held on nomination

day, when the trustees shall give the required information. Section 48 of the Municipal Ordinance says that these statements shall be given at the same time and place as may be appointed for the Mayor and Council to make their report to the citizens, viz., within the two weeks preceding the date for the annual election, as per Section 107. This meeting was held on December 2nd last, and as previously stated, but the School Board made no statement of any kind, and the ratemakers were therefore asked to nominate and elect trustees for the ensuing year, in total darkness as to how their business had been conducted during the past year. This is not in keeping with business principles or the spirit of the law. This meeting is provided for the express purpose of enabling the ratemakers to ascertain the condition of municipal and school affairs, and to place them in a position to know whom to elect for next year, as well as to encourage a mutual understanding between the electors and the electors. Of course, no one doubts but that the public business has been conducted in the best interests of the town; but the legislators who framed the Ordinance knew their business, and it would be just as well if the law was followed as closely as possible.

The Council should have seen to it that the auditors made their report within the specified time, and the School Board should have met the electors as provided for in Section 55 of the School Ordinance and Sections 48 and 107 of the Municipal Ordinance.

But it is not to late yet, and for the information of the ratemakers we might say that it is the intention to hold a public meeting as soon as the audits are completed.

A reader of the Winnipeg Tribune writes asking if the report is true, that our Government is paying the C. P. R. company for operating the Calgary & Edmonton branch of the C. P. R., \$80,000 per year; also the Prince Albert branch of the C. P. R., \$80,000 per year. If so, he thinks it would be a strong argument in favor of Government ownership of our railroads, and is of the opinion that it is time to quit building railroads and giving them to a company, paying a company for operating the roads, paying them for carrying the mail, also mileage for carrying Members of Parliament, mounted police, and other Government officials. The Tribune says the report is quite true.

Sometimes correspondents deviate from what is the general routine in the matter of news, which sometimes gives offence when a joke was intended. It is nobody's business if Bob goes to see Kate and warning Jack to be on the look out. Nor should it be recorded that certain footprints look like so-and-so's. What interests the public is: How are farm operations progressing; new settlers coming in and others going out; prospects for the coming year; visitors to the district; social events, and so on. We are always glad to receive news of general interest to the public. It is a source of help to the community from whence it came.

Rev. H. Pedley, of Winnipeg, preached an eloquent sermon last Sunday evening, in which the principal matter dealt with was the girl garment makers' strike now going on in that city. He also referred generally to labor conditions, and in reply to the claim that unless Canada has cheap labor, manufactures would be impossible, he said: "Then let them be abandoned. We do not want manufactures that can only exist and pay at the price of human degradation and suffering. I am sure the religion of Jesus Christ is one unqualified protest against such a policy."

The post office department at Washington has ruled that the writer has a right to regain possession of a letter providing he can prove to the satisfaction of the postmaster at the office from which it was sent that he was the writer of it. Even if a letter has arrived at its destination and before it has been delivered to the person to whom it was addressed it may be recalled by a telegram through the mailing office. The reason assigned is that the United States is only the agent of the writer of the letter while the letter is in transit. The decision is important to business men and to private individuals.

ADVERTISING PAYS THIS FIRM.—The Moose Jaw Tea Company, of Toronto, have met with great success in the past year. Their business has been increased over 600 per cent. during 1898. Previous to this they had only done a little advertising, but found the way to get good results was to do it in a larger way. Their example should be followed. It pays.

The recent Winnipeg fire seems to have demonstrated the fact that the city's fire protection appliances and the management of them are not just what they ought to be. A searching investigation is now going on in order to find out where the fault lies. The Board of Trade asked for the investigation.

Speaking of the Doukhobors, the Melita Enterprise, a Conservative paper, says: "These people have come in for severe criticism by some of the provincial journals, but there are many Canadians who could do credit to themselves by copying some of their traits."

## We are the Agents for ORIGINAL GILBERT DRESS LININGS.

Sea Island Silk Skirting is the economical woman's delight. It has all the beauty of a fancy silk, is more durable, double the width, and is only one quarter the price. It is striped in colors, mirrored and grained like silk. You will say so when you see it at our counters.

Used by the fashionable modistes and ladies tailors.

The Standard for twenty years. Every yard guaranteed. 140,000,000 yards sold in this country alone.

## Silk Premier, Silver Sheen, Commodore Fabric.

For Lining Skirts and Waists or for Making Underskirts, we also carry Gilbert's Celebrated fast Black Linings.

For Sale in all Qualities....

## R. BOGUE.

### A CLEAN SWEEP.

New Brunswick Goes Liberal by 42 to 4—A Black Eye For Foster.

The New Brunswick provincial elections were held last Saturday and resulted in a clean sweep for Premier Emerson, the Liberal leader. Out of 46 candidates only 4 Conservatives were elected, while 42 Liberals were returned. In St. John city, where Mr. Stockton, leader of the Conservatives, felt sure he and his three colleagues would be elected, four Government supporters went in by handsome majorities.

Ottawa politicians are considering the effect the result of the elections will have on the aspirations of Mr. Geo. E. Foster to the Conservative leadership. The political issue having been raised at the Moncton convention at his instigation, the outcome is not only a Conservative disaster, but a personal defeat that seriously prejudices his claim to the position now held by Sir Charles Tupper. Mr. Foster went to New Brunswick to establish his claim by placing the Conservative Government in power at Fredericton. He succeeded in electing three or perhaps four members out of forty-six. His party prestige has sustained a serious blow.

### A Great Opportunity.

We give away absolutely free of cost, for a limited time only, The People's Common Sense Medical Adviser, by R. V. Pierce, M.D., Chief Consulting Physician to the Invalid's Hotel and Surgical Institute, a book of 1008 large pages, profusely illustrated, bound in strong paper covers to anyone sending 31 cents in one-cent stamps, to cover costs of mailing only. Over 680,000 copies of this complete family doctor book, already sold in cloth binding at regular price of \$1.50. World's Dispensary Medical Association, Buffalo, N.Y.

### LEGS LIKE STOVEPIPES.

Kidney Irregularities Developed Into Dropsy—South American Kidney Cure Cured Him.

South American Kidney Cure is doing every day for hundreds what it did for a steamboat man out in Lincoln County. Through exposure while sailing he contracted kidney disease, and in a short while dropsy developed, so that his legs swelled as large as stovepipes. Doctors held out no hope for his recovery. He was recommended to use this great kidney specific, with the result that in a few weeks' treatment he was able to resume work a cured man, feeling stronger and heartier than he had for years. Sold by Turnbull & McCulloch.

WAGNOR'S GUIDE AT 25 CENTS

### THE BRITISH EMPIRE.

It Covers Some Territories and Includes Various Races.

From the latest statistics published it appears that the British Empire extends over 11,334,700 square miles, of which only 121,481 are in the small islands which are the home of the United Kingdom of Great Britain and Ireland. Queen Victoria is ruler over 400,000,000 people, and only 40,000,000 of them dwell within the confines of the United Kingdom. In 1897 the revenues of Great Britain and her colonies were \$1,125,000,000, while the share raised in the United Kingdom was only half that amount.

India, Australia and Canada are, of course, the richest of Britain's possessions. In the provinces of India the Queen's realm extends over more than 1,500,000 square miles of territory, and through her viceroy she rules 292,000,000 people. The Canadian possessions cover 3,470,257 square miles, and the Canadian subjects number nearly 5,110,000 souls. In Australia the Queen has 4,235,250 loyal subjects. It is the largest island in the world—about 3,175,153 square miles—equalling in size the United States, including Alaska, and being twenty-six times as big as the little Britain that rules it.

The rest of Great Britain's colonial possessions are not, territorially, so important. In the English and Irish channels are the Isle of Man, Jersey and Guernsey; in the Mediterranean are Gibraltar and Maltese and Cyprus Islands; in the Gulf of Aden is a group of dependencies; in the Indian ocean are Ceylon and a few minor islands; in Asia are India and the Straits Settlement; in the Asiatic archipelago are Hong Kong, North Borneo and Labuan Islands; in the Pacific the British flag floats over New Zealand and the Fiji; on the American continent, besides Canada, Britain holds sway over Newfoundland, Guiana and Honduras; in the North and South Atlantic are a dozen such islands as Bermuda, Bahama, Jamaica and Barbados, and added to all these are the millions of miles of British territory and the millions of British subjects in darkest Africa. The smallest of Britain's foreign possessions, but at the same time one of the most important, is Gibraltar, which includes only one and nine-tenths square miles, and is the home of 26,000 people.—Scottish American.

### KICKED HIS PHYSICIAN.

"Never Leave His Bed Alive," Said the Doctor—South American Rheumatic Cure Does the Miracle.

Mr. Granville Haight, of Sparta, Ont., says his father, who is a very old man, was very low from a severe attack of rheumatism. His physician assured the family he would never leave his bed alive. A friend took a bottle of South American Rheumatic Cure to him. A few days later upon receiving a visit from the doctor, he ran across the room and playfully administered a hearty kick. He is now up and as well as ever. Sold by Turnbull & McCulloch.

### "500 ACRES FOR MY HEALTH."

Piles Were Sapping the Life From Him—Dr. Agnew's Ointment Cured.

Mr. M. Beemer, of Knotnau, Mich., says: "For seven years I had suffered from itching and protruding piles. I tried all kinds of cures, but got no relief until I used Dr. Agnew's Ointment. One application did more for me than any remedy I had ever tried. I have been such a sufferer that I would willingly give my 500 acres of land rather than have a return of my sufferings from those tormenting things." 35 cents. Use Dr. Agnew's Pills for liver ills. 20 cents. Sold by Turnbull & McCulloch.

## KIDNEY-SICK PEOPLE!

By far the largest army of sufferers in the world are the kidney-sick people—but by far the largest army of the cured ones attribute their cures to South American Kidney Cure—Cures Bright's disease. Cures diabetes. Cures all bladder ailments.

tested by eminent medical authorities on kidney diseases, and proved and testified to by them as the surest and safest cure for all diseases of the kidneys and bladder. It's a purifier—a healer—a health builder—efficacious alike to man or woman.

Good News from the North Country.—A young man in a large manufacturing concern in Northern Ontario, fell a victim to the dropsical form of kidney disease through atmospheric changes in following his daily labors. He continued his work until almost consumed by the physicians from whom he had been receiving treatment. He visited Toronto and consulted an eminent authority on kidney disease. The doctor sent him home with a bottle of South American Kidney Cure, and wrote privately to the young man's physician that it was only a matter of time with him until death would claim another kidney victim. When he began to realize for himself that his case was hopeless he took his case in his own hands, determined to fight for his life. He experimented with many so-called cures without relief. South American Kidney Cure was brought to his notice, and like everything else he used he was astonished he began to feel better under its use. He continued to gain strength, he took his bottles—and today that same young man is as sound as that same lame, working for that same concern, hale and hearty as the first day he went there. He gives all the credit to South American Kidney Cure.

SOUTH AMERICAN NERVEINE.—A nerve healer. Cures indigestion and all stomach troubles which are consequences of nervous collapse. SOUTH AMERICAN RHEUMATIC CURE.—Has lifted men off a bed of pain after a few days' use, who have not been able to stand for years. DR. AGNEW'S OINTMENT.—Cures tooth, bleeding, itching or ulcerating piles in from three to five nights. 25 cts.

east of Red Deer, Alta, heifer, 2 years  
old, muley, branded T5 combination on  
right hip; heifer, 1 year old, roan, brand-  
ed T5 combination on right hip; steer,  
1 year old, black, branded T5 combina-  
tion on right hip; five heifers, 1 year old,  
red, branded T5 combination on right  
hip; steer, 1 year old, red and white,  
branded T5 combination on right hip.

A man may talk of disdaining  
physical strength and prowess until  
disaster strikes, then he will find that  
he cannot look at a picture of an  
old-time knight, magnifi-  
cent in his armor, and not be  
convinced that the death with  
any other, without a thrill  
of admiration.  
Physical superior-  
ity is desirable  
and admirable,  
but is the "game  
with the candle," when it is  
won at the ex-  
pense of phys-  
ical health and  
strength?

The unhealthy  
man may gain the  
admiration of men  
and women, but it  
is a question whether  
such a man ever  
thoroughly gains their respect.  
The man whose arteries  
are bound with the  
red blood of health carries with him  
a force and an intensity that com-  
mand respect, even though he be  
slightly inferior  
mentally to the weak, nervous man.  
While no  
medicine in the world will add an  
inch to a man's stature, there is a  
medicine that will fill the veins and  
arteries with the rich, bounding blood  
of perfect health. It is Dr. Pierce's  
Golden Medical Discovery. It is the  
blood-maker and blood-purifier. When  
the blood is pure and rich and  
plenty, and filled with the life-giving  
elements that nourish every tissue of  
the body, it is impossible for a man  
to suffer from ill-health of any  
description. When every little  
blood-vessel in the lungs quivers with  
the rush of healthy blood, it is impos-  
sible for a man to have unhealthy  
lungs. When the walls of the  
stomach are nourished with healthy  
blood, dyspepsia and indigestion are  
impossibilities. When the liver is  
supplied with healthy blood it is bound  
to be active. The skin that is  
nourished with healthy blood will be  
clear and fresh and glow with  
health. "Discovery" is sold by druggists.

Mr. Isaac J. Downs, of Spring Valley,  
Rockland Co., N. Y., writes: "For three years I  
suffered from that terrible disease, consumption. I  
had wasted away to a skeleton. To-day I tip  
the scales at 215, and am well and strong. The  
"Golden Medical Discovery" cured me."

On premises of Patrice Fagnant, Duck  
Lake, Sask, since May, 1898, steer, one  
year old, spotted red and white.

On premises of Ferg McGregor, Carn-  
duff, Assa, horse, 9 years old, grey, sore  
in front feet, film over right eye.

On premises of Corentin Carion, Horse  
Lake, Beaver Hills, Qu'Appelle, Assa,  
steer, 3 years old, grey, dehorned, brand-  
ed P on left hip; steer, 2 years old, red  
roan, branded P on left hip; steer, 3  
years old, grey, dehorned, tail cut, brand-  
ed P on left hip.

On premises of W. Trood, Cotham,  
Assa, heifer, 1 year old, white and roan.

## A Fleashy Consumptive

Did you ever see one?  
Did you ever hear of one?  
Most certainly not. Con-  
sumption is a disease that  
invariably causes loss of  
flesh.  
If you are light in weight,  
even if your cough is only  
a slight one, you should  
certainly take  
**Scott's Emulsion**  
of cod liver oil with hypo-  
phosphites. No remedy  
is such a perfect preventive  
to consumption. Just  
the moment your throat  
begins to weaken and you  
find you are losing flesh,  
you should begin to take it.  
And no other remedy  
has cured so many cases  
of consumption. Unless  
you are far advanced with  
this disease, Scott's Emul-  
sion will hold every in-  
ducement to you for a  
perfect cure.  
All Druggists, and the  
Scott & Bowne, Toronto.

### "Dad" Smith and the C.P.R.

For some weeks past considerable dis-  
appointment has been felt in town on  
account of a report that the C. P. R. had  
decided to take the management of the  
new hotel out of Mr. Smith's hands and  
place it under the dining car department.  
As it was a personal matter between Mr.  
Smith and the Company we did not deem  
it our duty to comment upon it. But the  
commercial travellers and others have  
taken the matter to heart, with the  
result that the following appears in a  
Winnipeg paper:

"The Commercial has received a letter  
of complaint regarding the treatment of  
Mr. Smith, of Moose Jaw, by the Cana-  
dian Pacific Railway Company. Mr.  
Smith had charge of the dining hall at  
that place and lost heavily by the fire  
which destroyed the building. It is  
stated he was promised the new hall  
when it would be ready, but after waiting  
for it and losing a good chance of another  
business in the meantime, he was in-  
formed about the time the new building  
was ready, that it would be taken charge  
of by the dining car department. Mr. Smith  
appears to have a grievance against the  
Company, and as he is very popular  
with the commercial men, they are ready  
to take up the cudgel in his behalf. The  
matter, however, seems to be one of a  
personal nature between Mr. Smith and  
the Company and not a public question  
for press comment.

### Binder Twine and the Philippine Islands.

The Philippine Islands are just now  
in a state of war. As Manila hemp comes  
from these islands our farmer readers are  
interested in the outcome, as it may mean  
a very high price for their binder twine  
next harvest. On another page of this  
paper will be found an advertisement of  
National binder twine, guaranteed the  
best in Canada, made entirely of pure  
Manilla hemp.

### Pass This Along.

Calgary Herald: The hapless citizens  
of this poor little prairie town are being  
annoyed these days by little children  
jumping around trying to sell collar but-  
tons at 10 cents apiece, sent to them by  
an outfit gliding under the title of The  
Gen Novelty Co., of Toronto. In their  
alluring prospectus they say: "When  
sold, send our money \$3.50 by registered  
letter, post office order or express order,  
and we will send you premiums men-  
tioned in our premium list." We will not  
say that this is the rottenest old chestnut  
of a fake, because it might cost us \$1,000,  
but we are sending them a copy of this  
paper conveying an intimation to bar out  
Calgary in their list of collar button ex-  
changes. Buncom is all right when it  
goes, with adults, but we must keep the  
kids from getting the harpoon thrown  
into their vitals by eastern whalers.

### Jim Didn't Walk.

A good story is told in Montreal of Mr.  
T. G. Shaughnessy, the vice president of  
the Canadian Pacific Railway Company.  
A few months ago a battered looking  
individual named Jim, blew into the C.P.  
R. offices in Vancouver and asked for  
transportation to Montreal. He claimed  
that he was on his uppers and claimed  
the privilege as an old and intimate  
friend of Mr. Shaughnessy. The trans-  
portation was of course refused, where-  
upon he suggested that a telegram should  
be sent to the vice-president saying that  
his old friend Jim wanted transportation  
to Montreal, and asking for instructions.  
This was done.

Mr. Shaughnessy received a telegram  
from Vancouver to the following effect:  
"Jim—here broke. Wants transpor-  
tation to Montreal. Claims he is old and  
intimate friend of yours. Shall we give  
him transportation?"

Promptly the reply came from Mr.  
Shaughnessy in Montreal: "Don't let  
Jim walk."

Jim was accordingly given his trans-  
portation and went on his way rejoicing.  
On his arrival in Montreal, his natural  
courtesy prompted him to go and thank  
Mr. Shaughnessy for the favor. On being  
shown into Mr. Shaughnessy's office, that  
gentleman did not quite see why Jim  
should express so much gratitude to him,  
and asked him how he got over from  
Vancouver.

Jim replied: "On your pass."

Mr. Shaughnessy said that he had not  
given him any pass.

Jim said, "Oh, yes you did," reminding  
him of the circumstances of the telegram.  
"You telegraphed your agent at Van-  
couver, 'Don't let Jim walk.'"

Investigation discovered that Mr.  
Shaughnessy's telegram should have read:  
"Don't—let Jim walk."

### The A B C's of Boharm.

A stands for Arnold,  
Who went to the east  
To start a menagerie  
With one owl at least.  
B stands for Bate,  
A bachelor bold,  
Who went to the east  
To get married we're told.  
C stands for Campell,  
Who trains the young mind;  
D stands for Dick  
Who to the old folks is kind.  
E stands for Elsom,  
The Lord Mayor or our town.  
G stands for Green,  
The Laird of great renown.  
H stands for Hopkins,  
Who is fond of a jest;  
I stands for Ingles,  
Who farms in the west.  
J stands for Johnston,  
Who shaved off his chin;  
K stands for Kilgour,  
Who breaks horses in.  
L stands for Lincoln,  
Who the white owl did catch;  
M stands for Miller,  
Who does the Laird's request.  
O stands for Observer,  
Who tried to write verse,  
And O stands for Oxford,  
The land of our birth.  
P stands for Pascoe,  
With a wild pig you know,  
He brought up the rest  
Of the wild beast show.  
R stands for Rambler,  
A writer of old;  
S stands for Shepley,  
A farmer bold;  
T stands for Thomson,  
Who moved into town;  
W stands for Webb,  
The tallest man round.

—A Junior.

### LANGUID WOMEN

Take the Help that South American  
Nervine Offers and be Well, Strong  
and Happy.

Miss Lucinda Butcher, of Teeswater,  
Ont., had a very severe attack of malarial  
fever. It left her very weak, languid,  
and threatened with nervous prostration.  
South American Nervine was recommended  
to her and she tried it. After taking  
a few doses she felt great benefit. She  
continued taking it until six bottles  
were used, when, to use her own words,  
"I was completely restored to health. I  
can recommend it as a great remedy."  
Sold by Turnbull & McCulloch.

A Bayonet Thrust is as a pin scratch  
to the tortures of indigestion and Dys-  
pepsia. The bravest soldier will weaken  
before the onslaught of these redoubtable  
enemies to health. Dr. Von Stan's Pine-  
apple Tablets break down the strong-  
holds of disease, build up and fortify the  
wasted nerve force, put new life, new  
hope, new energy, hoist the banner of  
victory in the stead of the flag of distress.  
35 cents. Sold by Turnbull & McCulloch.

### A New Departure.

Dr. Marchand, the celebrated French  
physician has at last opened his magnifi-  
cently equipped laboratory in Windsor, Ont.  
There is a large staff of chemists and phys-  
icians at his command, and the men and  
women of Canada may now procure the  
advice of this famous specialist free of charge.  
Dr. Marchand has a world wide reputation  
for successfully treating all nervous diseases  
of men and women and you have but to  
write the doctor to be convinced that your  
trouble when received, is from a man who  
is entitled to the high position he holds in the  
medical fraternity.

Why suffer in silence when you can secure  
the advice of this eminent physician free  
of charge.  
All correspondence is strictly confidential  
and names are held as sacred. Answers to  
correspondents are mailed in plain envelopes.  
You are not asked to pay any exorbitant  
price for medicines, in fact it rarely happens  
that a patient has expended over 50 cents to  
one dollar before he or she becomes a firm  
friend and admirer of the doctor.  
A special staff of lady physicians assist  
Dr. Marchand in his treatment of female  
cases. Always enclose a three-cent stamp  
when you write and address The Dr. Marchand  
Chemical Co., Detroit, Mich., U.S.A.  
Mention THE MOOSE JAW TIMES when you  
write the Doctor.

## THE MONTREALS WIN.

### NAME IS PROTESTED BY THE WINNIPEGGERS.

Unsportsman-like Ending of the Second Game for the Stanley Cup—Score 3 to 2.

Montreal, Feb. 20.—Saturday night the Victoria Hockey club of this city, for the time being at least, won the right of the title of the champion-ship of the world and the possession of the Stanley cup, but the manner in which the honor was earned leaves a dark stain on the reputation of Montreal as a sporting city and disgraces the home team in the eyes of all lovers of fair sport. If the trustees leave the cup in their possession it will be the most empty honor ever held by a Canadian hockey club, even though most of the blame is attached to only one member of the team. The whole matter was a disgrace and the responsibility lies first with Macdonnell, who with deliberate brutality put "Tony" Gingras, of Winnipeg, out of the game, and secondly, with the referee for his childish action in throwing up his job and quitting the rink simply because the visitors criticised one of his decisions.

When Gingras was hurt Referee Finley ruled Macdonnell off for only two minutes, despite the fact that at a meeting held by the representatives of the two clubs and himself previous to the matches it was mutually agreed that any player committing a deliberate foul should go off for the remainder of the match. His excuse for the ruling was that he thought Gingras was shamming and he could not be induced to change the ruling when shown that "Tony" was seriously hurt.

Macdonnell, of the Montreal Victorias, who is a hot-headed, dirty player, when closely pressed on either the ice or the football field, is a gentleman by instinct. Saturday night when he realized what he had done, he went to the Winnipeg dressing-room and apologized and even offered to go off the ice for the rest of the game, but the captain, Drinkwater, said he would not allow him to do so.

Macdonnell's action, while palliating to a certain extent his offense, makes the contention of Referee Finley more untenable. He was obstinate, would not yield, and told President Code, of the Winnipeg Vics, that he would throw up his job. Suing the action to the words, he took off his skates and left the rink. Of this there is not the slightest doubt. Manager Sheppard, of the Arena rink, announced to the crowd that the referee had disappeared and he was off. But Mr. Finley was like that celebrated cat of which we all have heard—he came back.

The game, as far as it got, was a remarkable exhibition of hockey on the part of both teams, considering the soft condition of the ice, and never before in the history of hockey in Canada or anywhere else, was a contest watched by so great a throng. At half-past eight o'clock almost eight thousand had passed the turn-stiles and still they came in scores. Finally, the "No room" sign went up, and it was impossible to secure entrance to the rink. It is estimated that fully fifteen hundred people were turned away.

#### MACDONNELL FOUL.

Finally Macdonnell got the puck, came up the ice and got past Johnston, but Gingras was on his heels and caught him. A sharp tussle ensued and the Winnipegger got possession of the disc and was starting down the ice with it when Macdonnell raised his stick above the shoulder and brought it down, the end of the point catching Gingras across the side of the leg at the knee. "Tony" tried to move off but couldn't, and dropped face downward in agony. The "Pegs" gathered around and lifted him up. Drinkwater came up with some remark and it looked for a minute as though he and Howard would scrap. When Macdonnell's stick fell across Gingras' knee a thousand groans, mingled with hisses, went up and continued for thirty seconds. Gingras was helped off the ice and Macdonnell went to the side with the time-keepers. A few minutes later he decided to go in, and as he skated across the ice hissing shouts of derision greeted him. Others, to their shame, cheered him for having struck the foul blow.

Macdonnell did not face the hostile crowd again during the evening. The foul was committed within fifteen feet of the Winnipeg boxes and was noticed by all the visitors. This is where the game ended with the event already described. It is doubtful if there are any hotter people in Winnipeg today than in Montreal. Public opinion seems to be strongly in favor of the Winnipeggers, and their action is warmly endorsed by thousands. President Code received a large number of telegrams from Winnipeg today congratulating the team for their stand.

Wichita, Kan., Feb. 20.—Fire wiped out the business portion of Hannibal, Kan., Friday night. Ten buildings with their contents were burned. The loss is heavy.

#### Chair Factory Burned.

Port Washington, Wis., Feb. 20.—A fire which started at 9.30 o'clock last night in the large plant of the Wisconsin Chair company threatens to destroy the whole town. Help was summoned from Milwaukee and Sheboygan. At 11.30 last night the chair factory was a total loss. The plant alone is valued at \$300,000 and employed 600 hands. A large lumber yard adjoins the plant and the flames are spreading with great rapidity. A second engine started from Milwaukee at 11.30 o'clock.

### Thirty-Five Killed Outright.

Brussels, Feb. 20.—The express train from Calais for the place, carrying passengers from London, collided with a train, which was at a standstill at Forest, near this city. Thirty passengers were killed outright and fifty others were more or less severely injured.

The train left Tournai at 5.22 in the morning, and reached Forest at 8.24. Immediately afterwards the Mous express dashed at full speed into the station and ran into the Tournai train, which was standing at the platform. It is said that owing to the fog the engineer of the express train did not see the signals.

The collision was appalling, the express locomotive mounted on the top of the last of the carriages of the Tournai train, which was filled with passengers. These cars were smashed to pieces.

#### Riot in a Chicago Theatre.

Chicago, Feb. 20.—A riot in which 2,000 men, women and children took part occurred this afternoon at the Star theatre at the corner of Sedgwick and Davidson streets, and before the police arrived, the interior of the theatre had been badly damaged. Scenery which was to have been used in the presentation of the play had been tied up by legal proceedings, and after the audience had waited until 4.30 p. m. for the curtain to go up, many began to clamor for the return of their money. They were refused at the box-office, and two minutes afterwards chairs were broken in pieces and hurled at the stage, chandeliers were broken, carpets were torn up, and the theatre and sidewalk outside was one mass of fighting, yelling humanity. The clanging of the patrol wagon bells scattered the crowd in a hurry, however. Later in the afternoon the money was refunded to those who presented their coupons.

#### Buried Under Malt.

Waterloo, Feb. 20.—An accident occurred at Huetter's Lion brewery here yesterday afternoon, Dan Kalbische, a workman, being killed instantly. Kalbische, William Hoffman and two others were at work shoveling malt on the second floor when the floor suddenly gave way at the south end with a mighty crash, and went through the first floor to the cellar, burying the two mentioned under four or five feet of malt. Hoffman was lucky enough to escape with his life, but Kalbische, he is believed was stunned by falling timber and was unable to extricate himself, life being extinct when assistance arrived a few minutes later. He leaves a widow and five young children.

#### Situation at Washington.

Winnipeg, Feb. 20.—It is believed that the visit of Messrs. Laurier and Fielding to Washington at the invitation of Sir Wilfrid Laurier indicates a crisis in the negotiations. The Canadian commissioners, before presenting an ultimatum to the Americans, desire to confer with their colleagues, not only to have the benefit of their advice to ascertain more fully the opinion of the members of the government at Ottawa.

#### Miraculous Escape.

Galt, Feb. 20.—John Jackson, of this town, had a narrow escape from death last night. He is moving to Kirkwall and was riding with a friend on a load of household goods. In going down a hill a box on the load slid over on top of the horses, throwing the riders to the ground. One of the wheels passed over Jackson's neck and shoulder, rendering him unconscious, but he is not very seriously injured.

#### Rossland Shipments.

Rossland, Feb. 20.—The shipments from the Rossland mines were phenomenally light during the past week. The War Eagle shipped but little owing to the alterations in the electrical compressor plant not being completed. The Le Roi is still being overhauled and made no shipments. The Iron Mask was the only other shipper. The shipments were as follows: War Eagle nine 234 tons, Iron Mask 54; total, 288 tons.

#### Thief Catches Thief.

London, Feb. 20.—Maud Richardson, who was the associate of "Harry, the Valet," the thief who stole the Duchess of Sutherland's jewels, wants the reward. She has threatened the duchess with legal proceedings for the \$5,000 for giving the information leading to the recovery of a portion of the stolen valuables.

#### Donkshobors at Ottawa.

Ottawa, Feb. 20.—Two train loads of Donkshobors passed through Ottawa tonight en route from St. John to Winnipeg. Mr. J. A. Smart went out to the station to meet them and found all on board well and happy. The ladies of the W. C. T. U. made a distribution of fruit and confections that was appreciated.

#### Death of a Politician.

Ottawa, Feb. 20.—Word was received here tonight that Dr. Pierre Malcom Guay, M. P. for Levis, Que., died at his home last evening. His death came unexpectedly to his many friends at the capital. He was a Liberal in politics.

#### Customs Officials Arrested.

Ottawa, Feb. 20.—Collector Milne, of Victoria, has written to the department of customs enclosing clippings from a Seattle newspaper giving an account of the arrest of two United States customs officers at Log Cabin, beyond the Summit of the White Pass. Milne says he has received no advice from Sub-Collector Peel. It appears to be the outcome of an old trouble of the American officials insisting upon conveying goods beyond the Summit.

## PRESIDENT IS DEAD.

### APOPLECTIC THE CAUSE—ONLY ILL THREE HOURS.

Official News Despatched by the Premier—The Nation in Mourning. A Touching Tribute.

Paris, Feb. 17.—M. Felix Faure, president of the republic of France, died at 10 o'clock last night after an illness of three hours. Death was from apoplexy. The president was 58 years of age last January. It had been known for some time that his heart was weak; but the first intimation that he was sick was given at half-past six this afternoon when a message was dispatched to Premier M. Dupuy, announcing that the president was ill. M. Dupuy immediately repaired to the Elysee. All medical efforts proved futile, and the president died on the stroke of 10. The flag over the Elysee was immediately lowered to half-mast and the news was dispatched to all the officials and the members of the cabinet. General Zurlinden, military governor of Paris, the grand chancellor of the Legion of Honor, the prefect of the Seine, the prefect of the police of Paris, and the presidents of the senate and chamber of deputies promptly arrived at the Elysee.

The report spread rapidly through the city, and large crowds soon assembled in the vicinity of the palace. About 6 o'clock, M. Faure, who was then in his study, went to the door of the room of M. Le Gall, his private secretary, which is contiguous to the study, and said: "I do not feel well. Come to me." M. Le Gall immediately went to the president's aid, led him to a sofa, and called General Baillood, general secretary of the president's household; M. Blondel, under private secretary, and Dr. Humbert, who happened to be at the Elysee attending a relative. The president's condition did not appear dangerous; but Dr. Humbert, on perceiving that he was rapidly getting worse, telephoned for Dr. Lanne-Longue, and Dr. Chourlet, who arrived with Mr. Dupuy, and were joined later by Mr. Bergeroy. Though M. Faure still retained consciousness, the doctors soon recognized that the case was hopeless; but it was not until nearly 8 o'clock that the members of the family were informed of the real state of affairs. They then came to the sofa where the president lay upon a hastily improvised bed. Soon after he began to lose consciousness, and despite all efforts, expired at 10 o'clock in the presence of the family and M. Dupuy. M. Dupuy communicated the sad intelligence to M. Loubet, president of the senate; M. Paul Deschanel, president of the chamber of deputies, the members of the cabinet, and to other high functionaries, after which he addressed the following dispatch to all prefects and sub-prefects in France: "I have the sad task to announce to you, in the death of the president, which occurred at 10 o'clock last evening, as the result of an apoplectic stroke. Kindly take the necessary measures to inform the population immediately of the mourning that has fallen upon the republic. The government cannot upon your active vigilance at this painful juncture." It was not until 11 o'clock that the news began to become known to the general public in Paris. From that time began a continuous arrival of public men. Street orders, however, were issued, and only members of the cabinet were admitted to the Elysee.

#### A TOUCHING SCENE.

The president was apparently aware of the seriousness of the attack, for he said: "I feel myself failing; I am gone, all gone," and he expressed a desire to see his wife and children. When Madame Faure and Madeleine Lucie Faure entered the room the president exclaimed: "Je suis bien souffrant. Je suis perdu." ("I am suffering greatly; I am lost.") M. Faure remained on a sofa, repeating that he had no illusions as to the issue of his case. His wife came to him and he bade her an affectionate farewell. It was a touching scene. He thanked her for the affection and devotion she had constantly shown him, and then he bade farewell to his daughters, the doctors and his personal attendants, thanking all for their care and devotion, and asking them to pardon any hasty words he might have uttered.

M. Cambion, French ambassador, had already retired for the night, when the news was broken to him. He expressed the greatest surprise and sorrow. Very painful it was to witness the distress of Madame Faure and the children. Only when with the greatest difficulty could she be induced to leave the death chamber, and even then she insisted on remaining in M. Le Gall's room, apart from the children, in order to give free vent to her grief. Madeleine Lucie Faure, Madame Berge, the other daughter, and M. Berge are in the secretary-general's bureau.

Fifty Donkshobor children are being taught English in All Peoples Mission, Winnipeg.

#### The Caters Laid to Rest.

Bowmanville, Feb. 17.—The funeral of the late W. Garor, his wife and two children, who perished in the snowslide disaster at Roger's Pass on the Canadian Pacific, took place yesterday. The funeral was very large. Rev. W. H. Turnbull, Presbyterian pastor, officiated.

The Property Owners' association, of Winnipeg, favor a reduction of interest on overdue taxes and the abolition of canvassing in municipal contests.

### A New Class of Assessment.

Toronto, Feb. 17.—A large deputation waited on the cabinet this afternoon, representing several cities, including Toronto, asking that the law be changed so that substructure poles, wires, rails, tracks, and other property of the street railway, telegraph, electric light, and power, water, gas, telegraph, and other such companies, be classed as real estate, and the basis of value thereof should be the same as any real estate owned by a private owner. They urged that all the classes of companies mentioned should be subjected to an assessment, the same as the personal property of private individuals. The deputation asked for an assessment of the street railway cars as personally. Premier Hardy, in reply, said there was a diversity of opinion, and that there were always two sides to a case. He thought there might be legislation introduced at this session of the legislature which would change the old assessment laws somewhat.

#### A Promising Season.

Toronto, Feb. 17.—A special cable says: "The Canadian government having intimated its willingness to receive more of the Donkshobors and settle them in the west, the committee is preparing to dispatch another contingent of about a thousand. These are now settled in Cyprus, but the climate has proved unsuitable and in any event they desired to avoid dispersion into various quarters of the world."

The Hamburg-American line intends to put on seven ships to ply between Hamburg and Halifax between April and June, carrying immigrants, mainly Galicians and Hungarians. The high commissioner for Canada is now receiving from 100 to 150 letters daily enquiring as to the conditions of taining in Canada and its suitability as a field for emigration.

#### Montreal Stock Exchange.

Montreal, Feb. 17.—It is no wonder that a seat in the Montreal stock exchange is worth \$10,000. During the last month the number of shares sold amounted to the large total of 444,018 (composed of 395,496 miscellaneous, 47,496 of street railways and 1,086 of banks) and \$40,000 worth of bonds. The most active stock was the War Eagle, of which 315,950 shares changed hands and variations in price were notable from \$95 to \$349.50. The next most active stock was Toronto Street Railway, with 35,794 shares, and here again the advance was a substantial 8 1/2 points. The other stock most active were gas, Canadian Pacific, Dominion cotton, Richardson Electric and Montreal Street railway. Bank stocks were comparatively quiet.

#### Ontario A. O. U. W.

Toronto, Feb. 17.—The A. O. U. W. Grand lodge of Ontario this afternoon decided that agents of the old line insurance companies may still hold positions in the grand lodge. Certificates for \$3,000 are not to be issued. Members attaining the age of seventy years are not to be exempt from the payments of assessments. The officers of local lodges are requested to file bonds with the grand recorder. The sum of \$10,000 was voted to be set apart for keeping up the organizing staff and \$2,000 for meeting the expenses of district deputies. No grand organizer is to be appointed this year, but the grand master workman is to issue full control of the organization department. The bonds of grand recorder, M. D. Carder, were fixed at \$20,000.

#### Free From Smallpox.

Montreal, Feb. 17.—Montreal people congratulate themselves on the fact that though there are seventeen cases of smallpox in Ontario not one has developed in Montreal. There was one case reported on St. Patrick street, which the provincial board of health pronounced to be smallpox, but which Dr. Loberge, the city health officer, positively declared was not. At any rate the patient is better, the house has been fumigated and no new cases have appeared. In the province of Quebec there are only four cases and all located at St. Stephen county.

#### Injured by an Explosion.

Halifax, Feb. 17.—A dynamite explosion occurred on Young avenue yesterday and frightfully injured three workmen, W. Swan, Michael Muidoney and Wm. Gilroy. The cap had been left on a charge of dynamite by Swan on Monday, who neglected to remove it when the men quit work owing to bad weather. While scraping the snow off the rock Swan's shovel struck the cap causing an explosion. The three men were blown some distance and terribly injured. Swan's eyesight is destroyed and the other two men are probably fatally injured.

#### Nicaragua Bill Defeated.

Washington, Feb. 17.—The house today settled the fate of the Nicaragua canal bill in this congress by refusing to override the decision of the chair in committee of the whole when the chair held that the canal bill offered as an amendment was out of order. The friends of the Nicaragua Canal bill were very confident yesterday and today that they would triumph, but after four hours of debate the chair was sustained 127 to 103.

#### Government Appointments.

Ottawa, Feb. 17.—George Pratt, of Montreal, is appointed trade instructor for the St. Vincent de Paul penitentiary. Major Gordon has been appointed to look after the fishery exhibit for the Paris exhibition; Dr. Dawson, for the mineral exhibit; Prof. Robertson, for field and ore wars; and Mr. Dupin, the secretary of the board, will have to look after the selection of the woods of the Dominion.

## THE NAVY YARD FIRE

### BROOKLYN BUILDINGS SUFFER A LOSS OF \$1,000,000.

Many of the Models and Patterns of United States Warships Consumed in the Flames.

New York, Feb. 16.—Four alarms were turned in tonight for a fire in the machine shop, No. 28, in the Brooklyn navy yard. This is a three-story brick building, built in the sixties, and full of old lathes and old machinery. The woodwork of the building was so well saturated with oil that the flames made great headway, and the building was apparently doomed before the firemen got the streams playing on it. It is situated at the east gate of the yard. Chief Engineer Windsor's office was in the building. The only work being done there was small work for the torpedo boats. The copper-smith shop, the boiler-makers' shop, and the foundry were soon in flames, and burning fiercely. The blaze in the machine shop started at 6.30 o'clock. At 8.15 the building was a total loss. A portion of this structure was occupied as a pattern shop. In this building were stored and kept pattern and models of the various warships built from time to time. All of these models were destroyed. The loss is estimated at \$1,000,000 at the lowest, and it is probable that it will reach a higher figure, as all of the patterns and models were expensive of construction. The loss on the building is placed at \$350,000; on machinery, \$400,000.

A peculiar feature of the fire was noted in the fact that the records and models of the battleship Maine, which was blown up in Havana harbor on Feb. 15, 1898, were also destroyed.

#### Crushed to Death.

Montreal, Feb. 16.—An accident by which two men lost their lives occurred at the Grand Trunk railway at Island Pond last night. Two men, R. Dickson, yard foreman at Island Pond, and A. Briton, brakeman, at Point St. Charles, were coupling a car to No. 5 train, which left about 11 o'clock and arrived in Montreal early this morning. The train is made up at Island Pond, after the arrival of the connections from Sherbrooke, Atholston and other points on the Intercolonial, as well as from Portland. Briton is a brakeman who travels on the train and was assisting the yard foreman to make up the train, when the engineer, in response to some one's request, jerked back the train upon the car that the two men were coupling, with the result that both were crushed to death. Their bodies were fearfully mangled and mutilated and were removed as soon as it was discovered. The fact was reported to the authorities and an inquest will be held, at which circumstances connected with the accident will be fully investigated.

#### White Pass Railway.

Vancouver, Feb. 16.—President Graves, of the White Pass and Yukon railway, states emphatically that the road will be built to Fort Selkirk, Yukon, and also to Athol. He emphatically denies the report which originated in Seattle that operations would be abandoned. A bill will also be introduced in the Dominion parliament to enable the company to extend its line from the international boundary. Said Mr. Graves, today: "We will have to go to the United States government," intimating that the road the company had in view was a railway that would tap all the mining districts in the Yukon Valley, both above and below Dawson.

#### Lord's Day Act.

Toronto, Feb. 16.—M. S. Robinson, John W. Carter and John E. Kirk-John were summoned in the police court this morning, charged with infringing on the Lord's Day act by giving Sunday evening concerts at the theatre. Carter is the owner of the building, the others are connected with the theatre. The defense was that no fee was charged, but the crown contended that this was more than met by the fact that a silver collection was taken up at the concert and on the size of the contribution depended the character of the seat given to the visitor. The case was remanded.

#### Aid to Defend His Title.

London, Feb. 16.—William Turnour Thomas Poulette, the organ grinder claimant to the earldom of Poulette, says that he has received offers of money with which to further his claim from a gentleman in Massachusetts. He also asserts that other offers of a like character have come to him from Montreal and elsewhere in America.

#### Will Go to Europe.

Montreal, Feb. 16.—Agonillo, the Filipino agent, at present in Montreal, sails for England in a few days. He says he will appeal to Great Britain on behalf of his countrymen. If aid is refused in that quarter the continental powers will be asked to intervene.

The steamer Germania has been raised in New York harbor.

#### Six-Day Bicycle Race.

San Francisco, Feb. 16.—When the twenty-fifth hour was finished in the six day race, at 11.54 last night, Grinn had 460 miles to his credit. The twenty-five hour record was 461 miles and 1120 yards, made in 1898 in the New York six day race. Miller, Barnaby, Pierce, Stevens, Ashinger, Nawn and Albert had also exceeded the former record for twenty-five hours. Ashinger remained on his wheel for 469 miles and five laps without dismounting.

### Montreal 2, Winnipeg 1.

Montreal, Feb. 16.—The first game in the Stanley cup series has been played and lost by the Victoria hockey team of Winnipeg, and their defeat could only be called a glorious one. It has always been said in the east that the Montreal Vics are looked after by Providence. Their lack seems to be phenomenal and was so apparent tonight that it is a keen aggravation to the Winnipeg contingent.

One minute before time was up the score stood one—nothing in Winnipeg's favor. Then McDougall scored for the home team with forty-five seconds left to play. The puck was faced again. It went down as far as Drinkwater, the Montreal cover point. Some how or other he seemed to be a clear space between him and the Winnipeg goal posts. He skated down it with a terrific pace; got the puck past Merritt and the game was won. Winnipeg tried to even the score in the few seconds left to play, but could not do so.

The Winnipeg boys very properly attribute the defeat to overconfidence. They were playing drag with their opponents towards the end of the game, and were too anxious to increase the score. A strictly defensive game would have been better tactics, particularly as the local team have a reputation of being wonderful finishers.

#### Railway Accident.

Montreal, Feb. 16.—A bad accident occurred on the Grand Trunk this afternoon near Leunoxville, when four cars of the east going train ran off the track and rolled down an embankment. A dozen people were more or less badly injured. All will, however, recover, save perhaps a 14 year old lad named Harry Buk, whose injuries may prove fatal. He was on the train with his parents, both of whom were injured somewhat seriously.

Portland, Me., Feb. 16.—It is reported here that a Grand Trunk train after breaking away from the engine, was derailed at a point south of Sherbrooke, Que., tonight. Several persons are reported killed. The train is supposed to be the one which left here at 8 a. m. for Montreal.

#### A Philosopher's Version.

London, Feb. 16.—The Daily Chronicle publishes a letter this morning from Count Leo Tolstoi, the celebrated Russian philosopher and reformer, condemning the conference proposed by Emperor Nicholas for a limitation of armaments as "only worthy of contempt and derision." Count Tolstoi says: "It will be impossible to reduce armaments while the nations not only persist in acquiring new possessions like the Philippines, Port Arthur and the rest, but also to keep what they have acquired, like Poland, India, Alsace-Lorraine and the rest."

## CONDENSED NEWS.

Lord Justice Chitty, of England, is dead.

The French army is now equal to the German army.

The U. S. forces again repulsed the insurgents near Jaro.

The funeral of the late Hugh Ryan was held in Toronto.

Zion church, Winnipeg, has added \$200 to its pastor's salary.

The Florida orange crops are badly damaged by cold weather.

Annexation to Britain is the only way out of the Samson difficulty.

Promoters of "collection" Sunday concerts in Toronto were arrested.

The Alington hotel, Chicago, was destroyed by fire, with loss of life.

The steamer Bulgaria, lost near the Azores Islands, has not been located.

The "gumna pig" amendment in the house of commons, London, was defeated.

An English college professor has invented the art of making silk from gelatine.

The steamer Laurentian arrived with a cargo of sheep and cattle at Liverpool.

Frank Cornell, chief of the C. P. R. dining car Hollywood, committed suicide at Revelstoke.

Oscar Beuchamp, of Montreal, has been appointed warden of St. Vincent de Paul penitentiary.

The largest immigration to Western Canada in the history of Minnesota will be recorded this year.

Danbar, of the Winnipeg Thistles, won the Walkerville competition, the closing event of the Winnipeg bonspiel.

The crew of the William Lawrence was rescued near the Georgia coast, after undergoing terrible hardships.

An agreement between the two countries on the important questions has been reached by the high joint commission.

The rumor is again current in London that Sir William Van Horne will retire from the C. P. R. and be succeeded by Mr. T. G. Shaughnessy.

A deputation waited on the Ontario cabinet with a view to having properties of telegraph, street railway, telephone and electric companies taxed.

Announcement was semi-officially made of the appointment of Mr. Beauregard, M. P., to be postmaster at Montreal, and Provincial Secretary Robitoux, of Quebec, as Paris commissioner.

#### Montreal Cotton Company.

Montreal, Feb. 16.—At the annual meeting of the Montreal Cotton company yesterday the following were elected directors: A. E. Gault, Jacques Grenier, Charles Garth, Hon. J. R. Ward, St. H. Ewing, R. B. Stevens, Samuel Finley. At a subsequent meeting of the board A. E. Gault was elected president, and Charles Garth, vice-president. The usual quarterly dividend of 2 per cent. is likely to be continued. The capital stock is \$1,650,000. It was increased \$150,000 last month for the purpose of making additions to the mill.

# Don't Send East

For your seeds this year. We have just received the largest and best assorted stock of garden and flower seeds ever carried in Moose Jaw. We guarantee good seeds and sell at eastern prices.

FRIDAY, FEBRUARY 24, 1899.

## LOCAL AND GENERAL NEWS.

Mr. E. H. Moorhouse was in Regina on Tuesday last.

Mr. A. E. Matheson returned home this morning.

Read Carey's big announcement in another column.

Mr. W. C. Sanders, J. P., spent last Sunday in Regina.

Fireman Jas. Fowler spent several days at the Capital this week.

Mr. D. McTavish returned from Regina on Tuesday morning.

Mr. Thos. B. Baker, grain dealer, is in Winnipeg this week on business.

Miss McLeod, of Sintuluta, is the guest of her sister, Mrs. J. C. Cameron.

Mrs. John Bellamy is visiting friends at Swift Current and Medicine Hat.

Dr. P. F. Size, Dentist, will be absent from town March 2nd to 10th.—Advt.

Mr. and Mrs. J. C. Hamilton returned home from Winnipeg on Tuesday morning.

Miss Haigh left yesterday morning on an extended visit to friends in Alberta.

Engineer J. H. Wellington and Fireman Jas. Sparrow returned from Winnipeg this week.

Mr. G. M. Annable, our popular stock dealer, left on Monday on an extended business trip to Dundurn.

Rev. Father St. Germaine will hold Mass at the residence of Mrs. P. Green, on the first Sunday in March.

It was forty-two below in New Brunswick last Saturday, according to the thermometer in the Conservative camp.

Extensive preparations are being made for the Christian Endeavor Convention to be held here on March 30 and 31st. Next week we intend publishing some interesting particulars regarding it.

During his visit to Winnipeg Mr. Alex. Wilson secured the agency for the Frost & Wood implements, manufactured in Smith Falls, and also other farm machinery. Look out for advt. next week.

Homestead Entries. Call and see map with C. P. R. lands and Hudson Bay lands for sale, also list of farm lands for sale. Fire Insurance, best companies lowest rates. SEYMOUR GREEN.—Advt.

There will be a missionary meeting in the Presbyterian church a week from next Tuesday evening (March 7th) when Rev. J. A. Carmichael, of Regina, will deliver an address on "Foreign Missions," and Rev. J. S. Dobbin, of Buffalo Lake, on "Home Missions."

A parlor church concert will be given at the residence of Mr. R. Bogue, on Tuesday evening, 28th Feb. at 8 o'clock. Rev. J. T. Fraser, violinist, of Regina, Mrs. Sheppard, Miss Cameron and others will assist. First class programme. Admission 25 cts.

Wolsley Echo: Harry and Robert Porter, who came down from Moose Jaw last week to attend the marriage of their sister, returned west by yesterday morning's train. On Monday evening a party was given to a number of their young friends at the residence of their parents.

A letter was received in Moose Jaw this morning from Mr. Hugh Ferguson, who writes from his old home at Lecknary, Scotland, under date of Feb. 7th. Mr. Ferguson and his bride had a sad home coming. When they arrived his eldest brother was very ill and died a couple of days later.

Standard: Virden is evidently a more wicked town than Regina. Here, some who buy coal forget to pay for it, but there some families burn coal without buying it, whilst the supply at the churches mysteriously disappears. Such people should have coals of fire poured upon their heads.

Mr. W. C. Lusk, photographer, will be in his studio until Tuesday night, Feb. 28th.—Advt.

Mr. Wm. Hunt, a prominent rancher of Weyburn, and brother to Dr. Hunt, of Indian Head, was in town on Monday on business.

Conductor Jno. Waddell returned to Brandon last Saturday, and was followed on Monday evening by Mrs. Waddell and family, who will reside there in future.

His Honor Lieut. Governor Forget and Jas. H. Ross, Commissioner of Public Works, returned from Ottawa to the Territorial Capital yesterday morning week.

Mr. Sharpe, of Winnipeg, who had the contract for the masonry work on the new C. P. R. hotel, was in town this week closing up the business in connection with his contract.

At the sitting of the Supreme Court at Regina last week, T. S. Bennett, senior turnkey at the Regina jail, was fined \$30 and bound over to keep the peace for assaulting the warden, A. L. Lunan, in January last.

Mr. R. S. Barrow, manager of the Union Bank, Regina, was in town last Saturday. While here he disposed of his handsome solid brick residence, erected last summer at a cost of \$2,500, to Conductor Thos. Battell, of the C. P. R.

The C.P.R. have decided to continue the improvement of the western division in putting down permanent bridges, side-tracks, etc. The most important of these will be substantial bridges over the Whitemouth and Brokenhead rivers, and the contracts for the masonry of these structures will be called for as soon as the plans are ready.

The new Presbyterian church at Summerside will be opened on March 5, 1899. Rev. J. A. Carmichael, of Knox church, Regina, will conduct the opening services on Sunday at 10:30 a.m. and 3:30 p.m. A social entertainment will be given on the following Monday evening, when the Rev. J. A. Carmichael and others will give addresses. Refreshments will be provided by the ladies of the congregation, and Mr. A. M. Fenwick, with his very efficient choir and others will give a musical and literary treat. Admission, adults 35c., children 25c.

## The Hockey Match.

The second match between the C. P. R. and Town teams for the possession of the silver trophy presented by J. H. Brown, of the Ottawa, was played last night. At the end of the hour the score stood even, each side having scored 9 goals. The following were the teams:

C.P.R.	Goal	Town.
Mannahan	Point	H. White
Alexander	Cover Point	Plaxton
Keyes		Heise
Christie		Pence
D. White	Forwards	Perry
Jno. Haigh		E. Baxter

The final match will be played on Thursday, March 9th.

## Home Again.

Mr. Hugh McDougall, our popular lumber merchant, returned home from an extended tour of British Columbia yesterday evening week. Mr. McDougall joined business with pleasure and sight-seeing. En route to the Coast he stopped off at Calgary, after which he spent some days at Canada's National Park, and tried the efficacy of the mineral springs. Continuing, he visited the leading lumbering cities along the line to the Coast. At Victoria he met Mr. Wm. McCarter, a former Moose Jawite, who had spent last summer in the Atlin country and expects to return next spring. The Atlin country is all the talk now at the Coast, and the hotels are crowded with prospectors who intend going in next March. In fact this district will likely be the "Klondyke" of next year. In this city he also met Mr. Wm. Henderson, a former Reginaian, but who is well-known in Moose Jaw. Mr. Henderson's office is in the Dominion post office building, and he holds a good position as superintendent of telegraph lines and architect for the Dominion Government. On Sunday he attended St. Andrew's Presbyterian church, and had the pleasure of listening to a discourse by Rev. W. L. Clay, formerly pastor at this place. At Nelson he met Messrs. C. D. J. Christie and J. E. Annable, who are doing well in the insurance and general brokerage business, and also Mr. J. N. McDonald, who is daily reporter on the Nelson Tribune. At Trail he met Mr. Geo. Mann and Miss Langford. He passed Silverton and Slocan City, where he expected to see Mr. J. G. Gordon and Mr. E. Colpitts respectively, but the boat did not stop long enough to enable him to go up town. He spent some time in Roseland and called upon Mr. W. J. Nelson, who is still hale and hearty and appears to be doing well in the legal profession. There he also met Andy Daly, who is engaged in mining. At Vernon he met Mr. R. W. Timmins, who has worked up for himself a good blacksmith business. Mr. McDougall returned home by way of the Crow's Nest Pass Railway, visiting the coal mines, Cranbrook and Fernie, arriving here on Thursday night. Everywhere he went business seemed brisk, money seemed plentiful and the bump of hope was well developed on the craniums of the people of the western province. The mining, the fishing and the lumbering industries were all receiving due attention and were giving ample returns to the laborers.

## GRAND COUNCIL.

### The Annual Meeting of the Territorial Grand Council R. T. of T.

The Territorial Grand Council R. T. of T. was opened here on Tuesday morning in due form by Grand Councillor Evans, with the following officers in attendance: Miss Winn, D.G.; W. J. Reynolds, G.S.; W. J. Kernaghan, P.C.; W. J. Brotherton, Treasurer; W. N. Mitchell and Levi Thompson, Grand Trustees; C. Endicott, G.G.; John Benson, G.S.; Mrs. Reynolds, G.H. The following delegates and visitors signed the roll: John Dobbin, Mary Holtby, W. Briggs, Rev. T. C. Buchanan, Regina; J. Hutchinson, R. A. Magee, Wolsley; W. Dixon, Maple Creek; P. Mooney, Indian Head; J. H. Ellis, Ellisboro; Ed. Cars, Lumsden; H. Brooks, Greenfell; G. B. C. Sharpe, Emeline Hudson, Maggie Barber, S. D. Battell, I. Wilson, S. Clement, Moose Jaw.

The following Committees were appointed: Temperance, Fraternal, Press, Appeals and Grievances, White Cross and Shield, State and Extension, Cadets, and Literature. The first part of the day was spent in committee work and in discussion of reports. Among other recommendations the following were adopted: That an earnest effort be put forward to secure prohibition legislation and that the members of the Dominion Parliament be urged to consider the mandate of the people as given by the majority for prohibition on Sept. 29th, 1898. A resolution was also passed favoring the plan of arranging a programme for the guidance of the Programme Committee, which should be instructive as well as entertaining; and that a special effort be put forward to secure those who are forming the drink habit. Recommendations were adopted by the Grand Council which it is expected will result in larger representation at the meetings.

The report of the Secretary showed a decrease in the membership, but also showed that the Grand Council was in better shape financially than it had been for some time. The loss of membership was accounted for by the fact of the temperance people having their attention turned to securing a large vote for prohibition.

All work was done thoroughly and well and the feeling that practical work must be done was very manifest.

The following officers were elected for the coming year: Grand Councillor—F. J. Reynolds, Medicine Hat.

Grand Vice Councillor—Miss Mooney, Indian Head.

Grand Chaplain—Rev. C. Endicott, Moose Jaw.

Grand Secretary—W. J. Brotherton, Regina.

Grand Treasurer—J. Benson, Wolsley.

Grand Herald—J. Hutcheson, Lehigh.

Grand Deputy Herald—Mrs. Reynolds, Medicine Hat.

Grand Guard—R. Magee, Wolsley.

Grand Sentinel—J. Brooks, Greenfell.

Grand Trustee—E. Cars, Lumsden.

The place of meeting for next Grand Council is Wolsley.

The usual votes of thanks were passed and the meeting adjourned.

## In West Huron.

The bye-election in West Huron took place on Monday and resulted in a victory for Holmes, the Liberal candidate, his majority being 118 over McLean, the Conservative candidate. The poll stood 308 to 190. Holmes carried every township excepting Goderich.

## Band Carnival.

The Moose Jaw Brass Band will hold a fancy dress carnival on Friday evening March 3rd, in the Hockey and Skating rink. Prizes will be given for best lady's costume, best gent's costume, best girl's costume, most comic costume, best national costume. Band in attendance. Admission 25 cents, costumers 10 cents.

## Ed. Cameron Gets Off With Two Months and \$50.00.

As intimated in last week's issue, Edward Cameron, who was committed to stand his trial on a charge of forgery by W. C. Sanders, J. P., appeared before Judge Richardson on Friday. T. C. Johnstone, Crown Prosecutor, appeared for the Crown, and W. B. Willoughby, B.A., for the defence. The principal witnesses were Messrs. H. Jagger, Jno. A. Creagh, Sam. Spicer and Geo. Motta. From the evidence produced by the Crown Prosecutor, it appeared that between September and December last the accused forged the name of Sam. Spicer to a note for \$25.00 on the Union Bank, and as Spicer is well-known here, there was no difficulty in discounting it. In order to meet this note Cameron forged two others in the name of Geo. Motta at the bank of Hitchcock & McCulloch for \$15.00 each. When the notes approached maturity, Motta was notified. This led to the discovery of the forgeries. The counsel for the defence pleaded for leniency on account of the youth of the accused, he being 19 years of age. In returning the verdict of "Guilty," the jury made a strong recommendation for mercy, and His Lordship fined the prisoner \$50.00, and sentenced him to two months with hard labor.

## DEATH OF R. W. JAMESON.

### Winnipeg's M.P. Instantly Killed by the Explosion of a Revolver.

Yesterday morning's Winnipeg papers contain the news of the sad and tragic death of R. W. Jameson, M. P. for Winnipeg, which occurred at his own residence about 8 o'clock Tuesday night. In the afternoon Mr. Jameson had attended a meeting of the Board of Trade, at which the Kettle River Railway charter was considered. He returned home shortly before 7 o'clock and ate a hearty dinner, after which he went up stairs to read a newspaper and enjoy a cigar. Shortly before 8 o'clock he came down and went into the kitchen and began talking to Mrs. Jameson. In some way the conversation turned on fire arms. Mr. Jameson had a revolver in his pocket. He took it out and commenced examining it, remarking what treacherous things they were and "Wouldn't it be an easy thing to take one's life." Just then Mrs. Jameson heard a muffled report and turned to see her husband fall dead on the floor. The revolver was self-cocking, and had went off in his hands. The bullet entered his mouth and passed out at the back of the neck, causing instant death. The unfortunate man was in his usual state of mind and there is no reason to believe that such a terrible event was about to happen. It is thought that in turning the revolver towards him, he accidentally pulled the trigger.
